

## **Statement of Understanding Health Occupations**

Meridian Technology Center seeks to provide eligible students enrolled in a Health Occupations career major with clinical opportunities consistent with their occupational choices.

As a student enrolling in a Health Occupations career major, it is my understanding that:

1. When applicable, a national felony record search (which includes a Sex Offender Registry check and Health Care Fraud & Abuse Scan), as well as proof of specific immunizations, will be required after my enrollment, but prior to the commencement of the clinical experience.
2. The national felony record search must be conducted by the designated third party authorized by the Health Occupations area. No other forms, photocopies, or record searches will be accepted.
3. If the completed record search/registry check indicates areas of concern, there is a strong possibility that I may not be able to complete the required clinical component of the career major – which means I would not successfully complete the career major.
4. If I am unable or unwilling to obtain the required immunizations for the clinical rotations, I will not be able to successfully complete the career major.
5. As an adult, if I am unable to complete the career major because of ineligibility to attend Clinicals, I will (if applicable) forfeit any tuition paid and be subject to whatever consequences are identified if I have accepted federal Financial Aid. As a high school student, if I am unable to complete the career major because of ineligibility to attend Clinicals, I will be subject to program dismissal and/or receive a failing grade on my high school transcript.
6. An employment authorization card or a social security number is required for this program due to licensure requirements.
