

## Pre-Engineering Interview Questions

1. Please describe what an engineer does.
2. At this point, is there any particular field of engineering that is of most interest to you?
3. What are your plans for education after high school?
4. What are your expectations for the Pre-Engineering program?
5. List as many different ways to use a pencil as you can think of. Feel free to draw explanatory diagrams if you think that might be helpful.
